

PRODUCT DESCRIPTION

Stand-EASE™ is a conduit support stake system designed to hold conduit at a precise, level working height during concrete pour on working walking surfaces. The support stake drives directly into the earth sub-base and accepts Stub-EASE II™ caps and Bend-EASE™ elbows via a click-lock channel mount at the top, eliminating the need for traditional rebar stub-ups.

The Stand-EASE™ system is the foundation of the Stub-EASE™ Total Solution, working in combination with Stub-EASE II™ and Bend-EASE™ components to completely eliminate conduit stub-ups from the jobsite.

SPECIFICATIONS — 8" (SE8)

Stake Height	8" (203mm)
Material	Glass-filled polypropylene
Color	Orange (Pantone 021 C)
Mount Type	Click-lock channel (top)
Base Footprint	2" x 2"
Compatible With	Stub-EASE II™, Bend-EASE™
Installation	Drive stake into earth sub-base
Concrete Rated	Yes — remains in slab
Patent Status	Patent Pending 19/022,537

Stand-EASE™ Conduit Support (Cat. No. SE8) — 8" Height

Base Detail — Click-Lock Channel Mount

PRODUCT	TRADE SIZE	CAT. NO.	UL FILE NO.	SHEET
Stand-EASE™ Conduit Support	8" (203mm)	SE8	N/A	1 OF 2
